Illustration by Wiebke Rauers

Dear friends and partners  
around the world,

Picture books: We all know how important they are. Through the magical combination of words and illustrations, they create entire worlds, spark children's imaginations and help them make sense of everyday life.

Step by step, they open up the world around them. Together with the person reading aloud, children can explore, understand and process what they see and experience.

In this way, picture books not only create precious moments of closeness, but also lay the foundations for language development, emotional growth and, perhaps most importantly, a lifelong love of reading.

We are therefore delighted to present a wonderful selection of new picture books, including *The Great Coppenrath Picture Book Treasury*. Across more than 270 pages, you will discover stories filled with warmth, familiar characters and relatable everyday adventures – books that invite children and adults alike to share cosy moments and create lasting memories.

But the journey towards a lifelong love of reading begins much earlier: with our wonderful board books by authors such as Joëlle Tournonias and Wiebke Rauers, continues with children's books by Suza Kolb and Jochen Till, and leads on to captivating stories by Anja Fislage, Tina Köpke and Anna Fleck.

We hope you enjoy discovering our books, each of which helps make the world a little more colourful. We wish you an inspiring browse through our new catalogue, and if anything catches your eye, we would be delighted to support you with sample material, pricing and rights information.

Warm wishes,

Your Coppenrath Rights Team

... doch kurz darauf wird er erneut geweckt. Er wird unsanft gerüttelt und geschüttelt und dann zwackt auch noch jemand an seinen Tentakeln.  
„Aufstehen, Snorri!“, hört er.  
Es ist Aquarian, der ihn rüttelt. Neben ihm schwimmt Aquina.  
„Lass mich, ich bin müde“, brummt Snorri.  
„Da hat wohl jemand schlechte Laune, was?“, schmunzelt Aquina.  
„Gar nicht wahr!“, grummelt Snorri.  
„Ach komm schon!“, lacht Aquarian. „Heute ist das Kostümfest in Aquamaris. Darauf haben wir uns so lange gefreut!“  
Snorri hat allerdings wirklich keine Lust – und dreht sich wieder um.  
Aquina aber lässt nicht locker, sie drängelt: „Wir wollten doch zusammen hingehen. Denk mal an die große Eröffnungsparade. Das wird bestimmt lustig!“  
Und Aquarian sagt: „Jetzt sei kein Spielverderber!“  
Spielverderber? Nein, das will Snorri nicht sein.  
„Na schön ...“, seufzt er und rafft sich auf.

The kind that makes you want to throw sea urchin shells around or stomp all six tentacles on the floor! There is only one thing that can help: going back to sleep ... But Snorri hasn't counted on his best friends. Aquina and Aquarian are excited about the big costume party in Aquamaris, and of course they want Snorri to join them. Can they cheer him up? In his sixth adventure, the little sixtopus shows that bad moods are perfectly okay, and that true friendship can weather even the stormiest moments.

Stella has only one goal: to become an agent of the Obskura, the secret sisterhood in Venice that has shaped the fate of humankind for centuries. Her first major mission takes her to an elite school in France, where she is ordered to keep a close eye on the son of a billionaire.

There's just one problem: she doesn't know whether she's been sent to protect him... or to kill him.

But an even greater danger is closing in. An assassin from a rival secret brotherhood is hunting Obskura agents, and Stella barely survives his attacks. Yet the closer she gets to her enemy, the harder he becomes to resist. He's hiding a deadly secret ... and he kisses as if his life depends on it.

- The start of a charming new series

Broomsticks and Bogwarts! When a fierce argument breaks out between the three witches Snowflake, Honey and Pebble, something completely unexpected happens: they accidentally shrink to the size of a thumb. Suddenly, blades of grass tower above them like giant trees. Snowflake's pet toad Jerome mistakes the tiny witches for a tasty snack, and a drifting dandelion seed becomes their only means of escape. But this is only the beginning of their adventure through the Enchanted Forest. The three friends soon realise that if they want to make it home safely and return to their normal size, they will have to do something that isn't always easy: stick together. A richly illustrated read-aloud adventure proving that even the smallest witches can work the biggest magic.

Falk "Zapf" Holzapfel works in a cosy shared studio in Vienna, where he creates children's books, board games and comics. When he isn't inventing new stories, he can usually be found riding his tame stegosaurus, taking on pirates or searching for his next adventure.

Megan Lambert grew up on the Californian coast, surrounded by seagulls and sea lions. Fascinated by animals from an early age, she wrote her first stories as newspaper articles for the ants in her garden. Today she lives in Vienna, where she works as a scientist researching bird behaviour.

- A heart-warming adventure full of humour and charm

All guinea pig Franz wants is to enjoy a few carrots in peace. But then a man in a raincoat and flip-flops suddenly stumbles into the enclosure and simply carries off dwarf rabbit Paula. Although Franz would much rather stay out of trouble than set off on an adventure, he makes a brave decision: he has to rescue his friend. Luckily, he is not alone. Energetic squirrel Kalle immediately joins the mission, bringing his backpack, plenty of ideas and just the right amount of chaos. Together, the unlikely friends embark on an adventure that demands more courage than either of them expected and discover that their greatest strength lies in working together.

Suza Kolb has been writing stories with cheeky, wild heroes since she was a little. She turned her hobby into an internationally bestselling career, writing many successful books and audiobooks about her unusual characters. „Wartet!“ Ben beeilte sich, hinterherzukommen.  
„Die Tür ist doch noch ...“ Krach! Knack! Ben seufzte.  
„... abgeschlossen“, beendete er seinen Satz. Dann folgte er Rosi und Ramses durch das dinoförmige Loch ins Labor.

Das Labor zur Erforschung von Wurmlöchern und Zeitreisen sah beinahe aus wie eine Raumstation: Es wimmelte nur so von Computermonitoren, blinkenden Lichtern, Knöpfen und Schaltern. In einer Ecke spuckte ein Drucker unendliche Papierschlangen mit verwirrenden Messkurven aus. In der Mitte des Raumes befand sich ein unübersichtlicher Haufen aus Aktenordnern und Elektroschrott. Irgendwo darunter, wusste Ben, war der Schreibtisch seiner Mutter vergraben.  
„Setz dich da hin!“, befahl Rosi dem Pharaos und zeigte auf einen Hocker. „Und nichts anfassen! Das ist hier alles wahnsinnig wissenschaftlich. Und wahnsinnig zerbrechlich.“ Dabei fegte sie versehentlich mit dem Schwanz einen Stapel Papier vom Schreibtisch.

„Und jetzt raus mit dir!“ Ramses umarmte seine Freunde zum Abschied und dann rutschte seine königliche Hoheit Ramses der Zweite, Herrscher von Ägypten, auf dem Po die Außenwand der großen Pyramide herunter.

Falls du dir die Pyramiden schon einmal aus der Nähe angesehen hast, weißt du vielleicht, dass deren unebene Außenseiten nicht gerade dazu einladen, sie auf dem Hosenboden runterzurutschen. Aber zu Zeiten der Pharaonen waren die Pyramiden von außen noch mit glattem weißem Kalkstein verkleidet, so dass man es vermutlich zwar unsanft, aber einigermaßen hinterscho-nend nach unten geschafft hätte ...

Kaum war Ramses fort, riss Ben Rosi den Wurmluchumkehrer aus der Klaue. „Zeig mal her!“ Das Gerät zeigte immer noch *Akkustand niedrig* an. „So ein Mist! Wir werden ewig brauchen, bis wir die Grab-

Dusty files, endless paperwork and a dinosaur lady spinning happily around on her office chair – this is definitely not how Ben imagined spending his summer holidays. Ever since a failed experiment started opening wormholes through time, staying home alone is no longer an option. Even Office-saurus Rosi takes the chaos in her stride, until an unexpected visitor turns everything upside down: Pharaoh Ramesses II suddenly appears in the guest bathroom. Now Ben and Rosi have only one mission: get the famous ruler safely back to ancient Egypt before the space-time continuum falls apart.  
A hilarious, fast-paced adventure full of time-travel chaos, surprising facts and unforgettable characters.

Moscow, 150 years ago. The Tsar receives alarming news: rebel Tatars are devastating the southern provinces of the Russian Empire, and the telegraph line, the only link between Moscow and distant Siberia, has been cut.

To warn his brother in Irkutsk of the looming danger, the Tsar entrusts his most loyal courier, Michael Strogoff, with a perilous mission spanning more than 5,000 kilometres. Along the way, Michael encounters the courageous Nadia, two determined journalists from France and England, and his most dangerous adversary: the ruthless traitor Ivan Ogareff.
